

GALIT

Dental unit

GALLANT OMNIPRATIQUE

I am constantly convinced that partnership is one of the key values at the GALIT Company.

It is no secret that dental unit is a basis of business for every clinic owner. There can be no compromises. That's why I chose Gallant Omnipratique dental unit.

The GALIT production processes are focused on creating equipment that meets the highest quality standards.

Here, only those mechanisms are developed, tested and implemented that are able to withstand long-term uninterrupted operation.

Guided by mutually beneficial cooperation and 20 years of experience, the company makes every effort to ensure that our business operates smoothly. You will also appreciate our prompt and reliable service, information support long after your purchase of dental equipment.

Professionals choose GALIT.

MAKING DENTISTRY HAPPEN

Reliability and Comfort that are time-tested

The GALLANT OMNIPRATIQUE dental unit is our global bestseller.

We have created an ergonomic and functional dental unit with a perfect design, because every part, every process is important to us, not just the end result.

Carefully selected components of your GALLANT OMNIPRATIQUE are combined with each other for high-performance work and perfect results.

We offer for you:

- Componentry from leading European manufacturers with warranty;
- Only hygienic reliable and durable materials that meet highest dental standards are used;
- Cuspidor unit can be adapted for use on-floor or integrated as a hanging unit, within the system;
- Unique menu of options to meet your dental requirements;
- Ability to choose up to 10 dental instruments for reliable and effective treatment;
- Movements of the assistant console in horizontal and vertical planes;
- Dental patient chairs designed for ultimate comfort with a number of options to choose from;
- Ease of maintenance, easy access for dental staff and service technician.

GALLANT
OMNIPRATIQUE provides:

- Ergonomics and functionality;
- Caring for your patients;
- Maximum safety and effectiveness of all treatment procedures;
- Effective interaction of dentist with assistant.

The options for patient chair that will make Your GALLANT OMNIPRATIQUE even more functional:

- Left swivel, removable armrest;
- Right swivel, removable armrest;
- Trendelenburg function (synchronous raising of legs by 15 ° when lowering the back of the patient chair by 90 °);
- Three additional programs for the patient chair;
- Replacement of the patient chair upholstery with Soft Foam;
- Special mat to protect the seat from damage.

Convenient positioning of patient with STING

Upholstery Soft Foam

The patient chair can be equipped with a left and / or right armrest. For more comfortable access of the patient to the chair.

Trendelenburg function (possibility of synchronous raising of legs on 15 ° at lowering a backrest of the chair on 90 °). With this positioning of the patient chair, proper blood circulation during treatment is ensured.

The patient chair control joystick. The high-precision joystick controls the chair in a simple and efficient way without any use of hands.

The patient chair is the perfect addition to GALLANT OMNIPRATIQUE:

- The patient chair is designed to provide comfort for patient and allows the dental team to work in the most ergonomic conditions. (Picture shows the STING patient chair)

Minimizes dentist fatigue during long-term treatment

Dentist console of Your GALLANT OMNIPRATIQUE

Can be equipped with necessary instruments located in the place where you intuitively expect to find them.

Optimal instruments weight and hose flexibility will ensure comfortable operation throughout the whole treatment process and also, by reducing the strain on the wrist, minimize fatigue during long-term treatment.

New ergonomic design for easy operation and efficient use of space.

Dentist console with upper delivery of instruments provides:

- Individually selected 5 instruments;
- Lightweight construction;
- Fixation in the right place with a pneumatic brake;
- Control panels to control instruments and patient chair.

Dentist console with lower delivery of instruments provides:

- Individually selected 5 instruments;
- Lightweight construction;
- Control panels to control instruments and patient chair;
- Adjustment of angle of inclination of instruments;
- Convenient adjustment of water amount for instruments cooling.

Assistant Console of your GALLANT OMNIPRATIQUE:

- Effective interaction between dentist and assistant;
- A key factor in quality treatment.

Synergy of teamwork with Omnipratique
